WHAT IS ENTERTAINING THE LATE STAYERS ELSEWHERE.

A September Season Seems a Pretty Sure Thing at All Eastern Summer Towns.

ATLANTIC CITY, N. J., August 29, 1902. There is no sign of a waning of the season as yet. The crowds are pouring in at the depots in greater number than ever before in the history of the city, and the hotels are booked as heavily for September and the first two weeks of October as they were for July and August.

An innovation along the boardwalk for the convenience of the public will be introduced in the fall. The finance committee of council decided to include in the budget for the ensuing year an appropriation to pay the cost of the erection of two pavilons and public conveniences on the beach, principally for the accommodation of women and children.

These pavilions will include every comfort for the summer residents and summer visitors, and will undoubtedly prove a great convenience. Recreation rooms and lavaories will be provided, and, although apartments will be provided for men, the greater part of the bulldings will be devoted to the

children and women. The exact location of the pavilions has not yet been decided upon, more than that one will be placed uptown and the other downtown. Nothing will be omitted which can minister to the wants of the tired and infirm or those who wish to get a com-fortable seat for themselves or their children where they can obtain a breath of sea air. The lack of seats along the boardwalk

air. The lack of seats along the boardwalk has long been a subject of comment, and this will do much to supply this lack.

A nominal entrance fee will be charged to the pavilions to cover the cost of maintenance and repairs.

A member of the finance committee said that this step was but the opening wedge, and that before another year had passed he expected to see twenty of these places of rest dotting the ocean front.

This Year's Rousing Labor Day Sale Will Be Long Remembered.

This gladsome occasion, when honest toil takes a day off from its labors and devotes it to family rejoicings and holiday makings, is always signalized by us by a half-day sale at which we forego all profits and make deep cuts into the actual cost of the goods for the benefit of the working people. The nearest and dearest interests are always centered in the home, and as Labor Day gives hard-working people an opportunity to attend to the needs of the home, we popularize our establishment by offering the lowest prices of the whole year during this one half day. We don't care how many thousand dollars we lose by this sale, for every piece of furniture that leaves this house will prove a lifelong advertisement for us. This year's sale will be the greatest and most striking we have ever held. We have been perfectly reckless in our jubilant price-cutting. We have slashed into new goods just arrived, and into summer goods alike. No consideration has withheld our hand, for we are determined to make this sale one that will be long remembered and much discussed.

Keep Your Insides Cool

Here's a man who thinks he has heart disease, and is scared half to death. His face is all drawn out of shape from fear and agony. Every time he eats, his heart "palpitates"-that simply means that his stomach is swelled up with gases from fermenting undigested food, and his heart thumps against his diaphragm. Nothing the matter with his heart In the summer time, this gas distention is much worse, his whole body and blood get over-heated, and his heart and lungs get so crowded for

is, look at him! Every minute he expects to drop dead. As a matter of fact, all he needs is to stop that souring and gas forming in his stomach and bowels, help his digestion along, and keep cool inside. You all know that whenever something rots or decays, heat develops. Same in the body. Keep cool inside! Take a candy cathartic CASCARET every night at

bed-time. It will work while you sleep, clean up and cool your insides, give you a regular, comfortable movement in the morning, and you'll be feeling fine all day every day. Heart Disease! Fudge!
